Important info

We pay a standard 10% commission on our contracts (but can offer up to 30% in 5% increments if requested) and can provide 1-3 year fixed contracts to offer protection on rate increases.

Should you wish for us to remove commission so you can invoice your clients as part of your services and add a margin, this can also be accommodated. This can be requested on a case-by-case basis as we provide quotes.

The client must pay at least a quarter of their contract value in order for commission to be payable E.g. 3 monthly invoices, the first quarterly invoice, or the invoice in full if annual.

Our payment runs will take place every Thursday afternoon, resulting in the recipient receiving the funds the following Monday. Therefore, the commission statements are included in the payment run which falls after the last day of the month.

Clients can also pay via cheque or through to our credit control team and pay by debit/ credit card over the phone. Clients can also set up a recurring payment with the credit control team.
